CONTENTS

Number 1, Jan/Feb 1981

1 The development of periventricular lesions in chronic relapsing experimental allergic encephalomyelitis in guinea-pigs: a light and scanning electron microscopic study
H. Lassman, K. Kitz and H. M. Wiśniewski

13 Topography of neurofibrillary tangles and granulovacuoles in hippocampi of patients with Down's syndrome: quantitative comparison with normal ageing and Alzheimer's disease
M. J. Ball and K. Nuttall

21 The suprahabenular recess in the rat: a quantitative study of ciliated cells, supraependymal cells and some specific features of supraependymal fibres
R. S. Tulsi and I. E. Dreosti

37 Neurofibrillary pathology and protein synthetic capability in nerve cells in Alzheimer's disease
D. M. A. Mann, D. Neury, P. O. Yates, J. Lincoln, J. S. Snowden and P. Stanworth

49 The development of brain tumours produced in rats by the intracerebral injection of neoplastic glial cells: a fine structural study
Panayota Davaki and P. L. Lantos

63 A survey of ethylnitrosourea-induced rat gliomas for the presence of tumour rejection antigens expressed *in vivo*
A. M. Spence and G. Priestley

77 Proceedings of the fifty-ninth meeting of the British Neuropathological Society held at the University of Southampton, 18–19 July 1980

85 Notices

86 Book reviews

Number 2, Mar/Apr 1981

87 Neuronal uptake of iron: somatopetal axonal transport and fate of cationized and native ferritin, and iron-dextran after intramuscular injections
T. Olsson and K. Kristensson

97 Ultrastructure of Alzheimer type II glia in hepatocerebral disease
N. Horita, M. Matsushita, T. Ishii, S. Oyanagi and K. Sakamoto

103 A histoquantitative study of the striate cortex and lateral geniculate body in normal, blind and demented subjects
C. L. Scholtz, K. Swettenham, A. Brown and D. M. A. Mann

115 Schwann cell multiplication in trembler mice
C. S. Perkins, A. J. Aguayo and G. M. Bray

127 Quantitation and *in vitro* analysis of the inflammatory cells in experimental allergic encephalomyelitis in the guinea-pig
Greta Allsopp, Darien Parker, D. J. Hinrichs and J. L. Turk

135 Chronological study of oligodendroglial alterations and myelination in quaking mice
Hitoshi Nagara and Kinuko Suzuki

151 Radial component of central myelin in normal and quaking mice
Hitoshi Nagara and Kinuko Suziki

161 Case report
Intracerebral calcification in a case of systemic lupus erythematosus with neurological manifestations
Janice R. Anderson

167 Book reviews

Number 3, May/June 1981

169 Annotation
The pathology of multiple sclerosis—fact fiction and hypothesis
Ingrid V. Allen

183 Permeability of the perineurium of small nerve fascicles: an ultrastructural study using ferritin in rats
A. Oldfors

195 Variations in the perineuronal glial changes after different types of nerve lesions: light and electron microscopic investigations on the facial nucleus of the rat
A. J. Søreide

205 The toxicity to rat cerebral cortex of topical applications of acetaldehyde ammonia or bilirubin
S. C. Phillips

217 Regional neurone damage after cerebral ischaemia in the normo- and hypoglycaemic rat
N. H. Diemer and E. Siemkowicz

229 The mode of development of an inherited form of anencephaly in the house mouse
Janice R. Anderson

237 Case report
Creutzfeldt–Jacob disease: a Golgi study
I. Ferrer, F. Costa and J. M. Grau Veciana

243 Proceedings of the sixtieth meeting of the British Neuropathological Society held at the Institute of Psychiatry, London, 15–17 January 1981

252 Announcement

253 Book reviews

Number 4, July/Aug 1981

257 An electron microscopic study of satellite cells and regeneration in dystrophic mouse muscle
P. J. Summers and R. Parsons

269 A quantitative assessment of dystrophic mouse(129 ReJ dy/dy) myogenesis *in vitro*
P. J. Summers and R. Parsons

279 Myelin basic protein and glial fibrillary acidic protein in human fetal brain
A. Borit and G. C. McIntosh

289 Effect of route of infection on the frequency and distribution of cerebral amyloid plaques in scapie mice
Moira E. Bruce and H. Fraser

299 Localization of S100 protein in the cerebellum: an immunoelectron microscope study
Ch. Legrand, J. Clos, J. Legrand, O. K. Langley, M. S. Ghandour, G. Labourdette, G. Gombos and G. Vincendon

307 Intracytoplasmic rod-like inclusions in caudate nucleus
N. Kawano and D. S. Horoupian

315 Ultrastructural changes in axons caused by acrylamide above a nerve ligature
J. B. Cavanagh and M. F. Gysbers

327 Book reviews

Number 5, Sept/Oct 1981

331 Annotation
Automated microscopy
D. Rosen

341 Functional aspects and pathogenetic considerations of the neuropathy in the spontaneously diabetic BB–Wistar rat
A. A. F. Sima and K. Hay

351 The development of rat dorsal root ganglia in three experimental media containing Landry-Guillain-Barré, alcoholic peripheral neuropathy or normal adult sera
Patricia J. Armati-Gulson

365 Spongiform polioencephalomyelopathy caused by a murine retrovirus. II. Ultrastructural localization of virus replication and spongiform changes in the central nervous system
J. R. Swarz, B. R. Brooks and R. T. Johnson

381 Effects of dexamethasone on fibre subtypes in rat muscles
I. Livingstone, M. A. Johnson and F. L. Mastaglia

399 A light and electron microscopic histochemical study on the mechanism of DFP-induced acute and subacute myopathy
L. Tóth, Sarolta Karcsú, Mária Poberai and Gy. Sávay

411 Comparative morphology of measles virus and paramyxovirus-like tubules in multiple sclerosis using ruthenium red stain
H. K. Narang

Number 6, Nov/Dec 1981

421 Immunocytochemical study of P_0 glycoprotein, P_1 and P_2 basic proteins, and myelin-associated glycoprotein (MAG) in lesions of idiopathic polyneuritis
R. Schober, Y. Itoyama, Nancy H. Sternberger, B. D. Trapp, E. P. Richardson, A. K. Asbury, R. H. Quarles and H. deF. Webster

435 Eosinophilic fasciitis: an ultrastructural and immunohistochemical study of the intermediate filament protein skeletin in regenerating muscle fibres
L.-E. Thornell and A. Bjelle

451 A quantitative study of age-related changes in the vascular architecture of the rat cerebral cortex
J. H. Wilkinson, J. W. Hopewell and H. S. Reinhold

463 Hepatic beta galactosidase and feline GMI gangliosidosis
I. C. Barnes, D. F. Kelly, C. A. Pennock and J. A. A. Randell

477 The effect of protecting guinea-pigs against EAE on the meningeal inflammatory cell-infiltrate
Greta Allsopp, D. Parker and J. L. Turk

489 Comparison between the early changes in isoniazid intoxication and the chromatolytic response to nerve ligation in spinal ganglion cells of the rat
H. B. Jones and J. B. Cavanagh

503 Proceedings of the sixty-first meeting of the British Neuropathological Society held at Queen's University, Belfast, 25–26 June 1981

513 Book reviews

519 Author and subject index to Volume 7
